### PROFILE

Computer Science Specialist with a strong academic foundation and hands-on experience in software development and data management. I am skilled in Python, Java, and web technologies, with knowledge of cloud computing, AI, and basic network security. Seeking an entry-level opportunity to apply technical skills in real-world projects.

### PROFESSIONAL EXPERIENCE

**Computer Hardware Technician** 03/2023 – 02/2024

*Jawharet Al Daeri Serviced Apartments*

- Installed and configured computer systems and hardware for hotel operations.
- Set up operating systems, hotel management software, and peripherals (printers, scanners, etc.).
- Performed system troubleshooting, routine maintenance, and basic IT technical support for staff.

### EDUCATION

**Bachelor's Degree in Computer Science** 09/2021 – Present

*Islamic University | Madina, Saudi Arabia*

### PROJECTS

**AI-Powered Brain Tumor Detection System (Graduation Project)** 08/2025 – Present

- Developed an AI-based web application for brain tumor detection using MRI images.
- Built a deep learning model for tumor classification
- Integrated explainable AI (Grad-CAM) for visual insights
- Implemented RAG-based system for generating medical explanations
- Developed backend using Flask and frontend with web technologies

### CERTIFICATES

- Diploma in E-Commerce Web Development
- Introduction to Software Engineering
- Introduction to Cybersecurity Essentials

### SKILLS

- Programming: Python, Java, Dart (Flutter)
- Web: HTML, CSS, JavaScript, Node.js
- Databases: SQL, NoSQL, PostgreSQL, MongoDB, Firebase
- AI & Machine Learning: Data Analysis, Model Building, Data Preprocessing
- Operating Systems: Windows, Basic Linux
- Tools: VS Code, GitHub Copilot, Cursor, GPT-5
- Soft Skills: Teamwork, Time Management, Communication, Self-Learning

### LANGUAGES

Arabic (native)

English
